*Downers Grove, IL*

**V. Reid Sutton, MD,** *Houston, TX*

*The mission of the OI Foundation is to improve the quality of life for those living with osteogenesis imperfecta through research, education, awareness and mutual support.*

## A Message From the CEO

Dear Friends,

I'm so pleased to share this information with you highlighting all the exciting events and activities that occurred in 2024...it was a very busy year! And, I want to take this opportunity to thank everyone in the OI community for supporting the OI Foundation as we develop new programs and initiatives.

You will read more about some of the OIF's new ventures in this report including expanded mutual support opportunities; additional funding for educational scholarships; new early-stage investigator awards; research into issues that affect adults with OI including new information on cardiac health and OI; and partnerships with pharmaceutical companies working on new therapies to name a few. You will also learn more about the great work of the Brittle Bone Disorders Consortium and how the consortium is moving clinical research forward by working together with scientists, clinicians and of course our OI community.

The OI Foundation continues to be a leader in the rare bone disease community as well, leading the Rare Bone Disease Alliance which includes 17 patient advocacy organizations all working together to advance research and develop new therapies. The OIF leads the very popular Rare Bone Disease TeleECHO and the OI TeleECHO—programs that work to educate professionals around the world on how to treat OI and other rare bone diseases.

And of course, the OI Foundation celebrated being "Together Again" at Regional Conferences held in Nashville,

Tennessee and Montreal, Quebec and the much-anticipated return of the OIF National Conference. For four days, more than 500 attendees gathered for educational sessions, complimentary medical consultations, and mutual support activities in Omaha, Nebraska.

None of this would happen without the support of you – our caring, generous community of supporters and donors. We thank you for investing your time, talent and resources in the OIF and assure you that your investment is being used wisely. Highlights of some wonderful fundraising activities over the past year include the Fine Wines Strong Bones Gala, DC; Houston's Boots and Bling for Better Bones Gala; Strong Bones Boston Gala; Riley's Golf Gathering; Abruzzi Family Golf Tournament; and the Unbreakable Spirit® Golf Tournament...all events planned and implemented by OI community members. Thank you!

Additionally, I would like to thank our individual donors, corporate supporters and those that contribute through their family foundation. Your generous support helps us to continue providing urgently needed programming to all members of our community.

So, on behalf of the OIF Board of Directors and staff, thank you for a wonderful year and I look forward to another exciting year ahead!

All my very best,

**Tracy Hart**

Chief Executive Officer

# 2024 Accomplishments

## Adult Transition/ Somewhere to Go

In November 2024, the OI Foundation led a virtual meeting of rare disease advocates from across the country focused on the issue of transitioning from pediatric to adult care. Also addressed was the issue of finding quality care for adults with rare diseases. The Osteogenesis Imperfecta Foundation is leading this effort under the leadership of Dr. Laura Tosi in response to the OI community's feedback that finding experts or providers with knowledge about OI is very difficult especially when transitioning from pediatric to adult care. The meeting developed action items and will engage those who attended in this issue over the next year.

## Cardiac Expert Review Panel

As a Type I collagen disorder, OI impacts nearly every system within the body including the heart, lungs, digestive tract, muscles/joints and teeth. But because OI is a rare disorder, there is still much that experts do not know about the full impact OI has on other systems in the body. This lack of standard is due to information being scattered and no complete evaluations of the literature concerning pathophysiology, epidemiology, and clinical characteristics. In January, the OIF brought together a group of international OI experts and cardiologists to review all the existing literature and research on cardiac complications in OI. These expert reviewers developed a consensus statement and recommendations for clinical care and compelling research needs. The associated manuscript has been published online is set to be published in *Journal of Bone and Mineral Research* this winter. Expert review panels such as this one can immediately impact health outcomes for patients because their providers will have a better understanding of how OI affects different systems and a standard of care.

## Medical Advisory Council

### Cathleen Raggio, MD—Chair

- Hospital for Special Surgery, New York, NY, Orthopedic Surgeon
- Co-Director of the Kathryn O. and Alan C. Greenberg Center for Skeletal Dysplasias
- Principal Investigator, Brittle Bone Disorders Consortium site in New York, NY

### Michael Bober, MD, PhD

- Vice President, Clinical Development and Medical Affairs at Tyra Biosciences
- Pediatrician and Medical Geneticist and at Nemours Children's Hospital, Delaware (Part-time, volunteer)

### Peter Byers, MD

- Professor of Laboratory Medicine and Pathology, and Professor of Medicine (Medical Genetics), University of Washington, Seattle, WA
- Clinical Geneticist, with specialty in heritable connective tissue disorders that include OI, Marfan syndrome, Ehlers Danlos syndrome. Founder and Director of the Collagen Diagnostic Laboratory, University of Washington
- Member of the MAC since 2004 and former MAC chair
- Recipient of the Marfan Award from the Marfan Foundation, and the inaugural Dr. John DiMasi Award from the VEDS Movement for excellence in care and research in vascular EDS.
- March of Dimes/Colonel Harland Sanders Award for lifetime achievement in the field of genetic sciences; Victor A McKusick Leadership Award from the American Society of Human Genetics

### Hollis Chaney, MD

- The George Washington University School of Medicine and Health Sciences, Washington, DC
- Children's National Health System, Washington, DC, as Vice Chair of the Division of Pulmonary Medicine

### Paul Esposito, MD

- Professor Emeritus of Orthopedic Surgery and Pediatrics, University Nebraska Medical Center, Omaha, NE
- Pediatric Orthopedic Surgeon Children's Hospital and Medical Center, Omaha, NE
- Member of the OI Clinic at Children's Hospital and Medical Center in Omaha

# 2024 Accomplishments

## MEDICAL ADVISORY COUNCIL (continued)

### Jeanne Franzone, MD

- Nemours Alfred I. duPont Hospital for Children in Wilmington, DE
- Pediatric orthopaedic surgeon at the Nemours Alfred I. duPont Hospital for Children
- Co-Director of the Multidisciplinary Osteogenesis Imperfecta Program
- Franzone is on the Scientific Advisory Board for the OI's Preparing Adults with Osteogenesis Imperfecta to Engage in Research on Access and Quality of Care for Their Rare Disease PCORI project

### Francis Glorieux, OC, MD, PhD

- Canadian Shriners Hospitals for Children, Shriners Hospitals for Children, Montreal, Quebec, and McGill University in Montreal
- Principal Investigator, Brittle Bone Disorders Consortium site in Montreal, Qc, Canada
- Principal Investigator on the landmark 1998 study on using bisphosphonates to treat children with OI; author of the OI Foundation booklet, Guide to OI for Pediatricians and Primary Care Physicians, and senior editor of Pediatric Bone: Biology & Diseases

### Deborah Krakow, MD

- Professor and Chair, Obstetrics and Gynecology, UCLA, David Geffen School of Medicine, Los Angeles, CA
- American Board of Medical Genetics board member
- American College of Obstetrics and Gynecology policy committee on Genetics
- Principal Investigator, Brittle Bone Disorders Consortium site in Los Angeles, CA

### Richard W. Kruse, DO, MBA

- Professor of Orthopaedic Surgery Thomas Jefferson University College of Medicine in Philadelphia, PA and the Uniformed Services University School of Medicine in Bethesda, MD
- Vice Chair Department of Orthopedics and Chief of the Orthopedic Trauma Service at Nemours/Alfred I. duPont Hospital for Children in Wilmington, DE
- Co-Director for the multidisciplinary OI program at Nemours/Alfred I. duPont Hospital for Children in Wilmington, DE
- Interests: Osteogenesis Imperfecta, bone trauma, sports rehabilitation, nutrition and transition from pediatric to adult health care

## Scientific Meeting

Each year, leading scientists and medical professionals attend the OI Foundation Scientific Meeting, a two-day event where attendees collaborate and share research. OIF Medical Advisory Council (MAC) members, researchers in the Brittle Bone Disorders Consortium (BBDC), and other notable researchers and clinicians are invited to attend. This year's meeting, held on April 17–19, 2024, was chaired by Dr. Charlotte Phillips of the University of Missouri. The meeting featured over 30 presentations on a wide variety of topics including Cardiopulmonary Research, OI Mouse Models, Updates on Non-Type I OI, Partnerships to Advance Research, Clinical Needs and Challenges, and Future Research Directions.

## OIF Regional Conferences

OIF Regional Conferences are one-day events held across the country that include sessions and discussions on understanding and living with osteogenesis imperfecta. These events are great opportunities for new and long-time OI community members to learn from expert speakers and meet other individuals and families in the area.

This past year, the OIF hosted two Regional Conferences in Nashville, TN and Montreal, QC. Nearly 100 OI community members and medical professionals attended each meeting to connect and discuss a range of OI related topics. Topics at these meetings included pain management, treatment options for adults and children, physical therapy, orthopedics, dental issues and more.

Coming in 2025, the OIF will be hosting three more regional conferences in Atlanta, Georgia, Denver, Colorado and Portland, Oregon. We hope to see you at an upcoming meeting. Check out [www.oif.org/conferences](http://www.oif.org/conferences) to keep up to date with upcoming events.

## MEDICAL ADVISORY COUNCIL *(continued)*

### **Brendan Lee, MD, PhD**

- Baylor College of Medicine, Houston, TX
- Principal Investigator, Brittle Bone Disorders Consortium
- Dr. Lee is an elected member of the National Academy of Medicine

### **Joan Marini, MD, PhD**

- Scientist Emeritus, National Institute of Child Health and Development, National Institutes of Health, Maryland
- Chief, Bone and Extracellular Matrix Branch, NICHD, National Institutes of Health, Bethesda, MD
- Geneticist, pediatrician, scientist specializing in Molecular Genetics
- Led clinical studies focused on growth in OI, pulmonary function in OI, treatment of children with pamidronate and rGH
- Her laboratory identified many of the genes causing rare forms of OI and generated mouse models to study their mechanism
- Awarded the National Institutes of Health Director's Award three times for her research on rare bone disorders
- Elected member of Association of American Physicians

### **Sandesh C.S. Nagamani, MD**

- Professor in the Departments of Molecular and Human Genetics and Internal Medicine at Baylor College of Medicine
- Vice Chair, Clinical Research Affairs, Department of Molecular and Human Genetics, Baylor College of Medicine
- Co-Director, Intellectual and Developmental Disabilities Research Center, Baylor College of Medicine
- Focused on translational research that involves evaluating new and potential therapies for various genetic disorders
- Clinical geneticist—provides clinical care for adult patients with a wide variety of heritable conditions including OI, heritable disorders of bone, and other metabolic bone diseases
- Investigator, Brittle Bone Disorders Consortium (BBDC)

# 2024 Accomplishments

## MEDICAL ADVISORY COUNCIL (continued)

### Frank Rauch, MD

- Canadian Shriner's Hospitals for Children, and McGill University Faculty of Medicine, Montreal, Quebec, Canada
- Director, Biomedical Laboratory, Shriners Hospitals for Children, Montreal, Quebec
- Principal Investigator, Brittle Bone Disorders Consortium site in Montreal QC, Canada

### Eric Rush, MD

- Children's Mercy Hospital and the University of Kansas Medical Center (KUMC), Kansas City, MO
- Clinical Geneticist at Children's Mercy Hospital and the University of Kansas Medical Center
- Professor of Pediatrics at the University of Missouri-Kansas City

### Sandy Sandhaus, MD, PhD, FCCP

- University of Colorado School of Medicine, and National Jewish Health, Denver, CO.
- Clinical Director at the Alpha-1 Foundation, Denver, CO
- Medical Director and Executive Vice President of AlphaNet
- Medical Director of AlphaNet Canada
- Dr. Sandhaus applies his experience with internal medicine, pulmonary disease, critical care medicine and the biopharmaceutical industry to the study of lung disease

### Jay Shapiro, MD

- Dr. Shapiro is Consultant to the Endocrine and Diabetes Dept. at the Walter Reed National Military Medical Center, Bethesda, MD
- Endocrinologist experienced in the treatment of genetic and metabolic bone disorders in children and adults
- Until recently, Director of the Bone and Osteogenesis Imperfecta Department, Kennedy Krieger Institute, Baltimore, MD. Professor in Dept. Physical Medicine and Rehabilitation Johns Hopkins School of Medicine
- Currently practicing in Bethesda, MD, Dr. Shapiro is Adjunct Professor, Dept. of Medicine, Uniformed Services University of Health Sciences, Bethesda, MD
- Dr. Shapiro is the Editor-in-Chief of the 2014 textbook, *Osteogenesis Imperfecta: A Translational Approach to Brittle Bone Disease* (Elsevier Publishers)

## OIF National Conference

The OIF hosted its National Conference at the Hilton Omaha in Omaha, Nebraska from July 19th–21st. This was the first in-person National Conference since 2018. The meeting drew more than 500 attendees, 100 of whom received financial support from the OIF through the Impact Grant program and Kasper/Kendall Conference Scholarship fund. Program highlights included the Unbreakable Spirit® Walk-n-Wheel, Women's Forum, OI Research Update, Pain panel, Fitness and OI, Talent Show, Peer-to-Peer Sessions, Medical Consultations, and Closing Dinner and Dance. The next OIF National Conference will be held on July 23–26, 2026, in Orlando, Florida.

## OI Clinic Outreach

In an ongoing effort to connect with medical professionals currently treating individuals with OI and to educate them on the OIF's resources for clinics and their patients, the OIF held two OI Clinic and Bone Health Town Hall meetings chaired by OIF MAC member, Dr. Laura Tosi in June and December 2024. These meetings represent a unique opportunity for medical professionals who treat patients with OI and those interested in bone health to connect with each other, stay up to date on OI care topics, and learn about OIF resources.

## MEDICAL ADVISORY COUNCIL (continued)

### Peter Smith, MD

- Pediatric Orthopaedic Surgeon at Shriners Hospital for Children, Chicago
- Professor, Orthopaedic Surgery, Rush University Medical Center
- Director, Osteogenesis Imperfecta Clinic, Shriners Hospital for Children, Chicago
- Principal Investigator, Brittle Bone Disorders Consortium site in Chicago
- Dr. Smith has visited China, India and several countries in South American to train physicians in surgical techniques related to OI
- Co-Editor of the 2015 textbook, *Transitional Care in Osteogenesis Imperfecta: Advances in Biology, Technology, and Clinical Practice* (Shriners Hospitals for Children-Chicago, Publishers)

### Reid Sutton, MD

- Texas Children's Hospital Skeletal Dysplasia Clinic and Baylor College of Medicine Department of Molecular and Human Genetics, Houston, TX
- Clinical Team Liaison and Principal Investigator, Brittle Bone Disorders Consortium Rare Disease Clinical Research Center, Baylor College of Medicine and Texas Children's Hospital, Houston, TX

### Laura Tosi, MD

- Orthopedic Surgeon, Division of Orthopaedics & Sports Medicine, Children's National Hospital
- Associate Professor of Orthopaedics and Pediatrics, George Washington University School of Medicine and Health Sciences, Washington, DC
- Principal Investigator, Children's Research Institute (CRI), Center for Genetic Medicine Research (CGMR), Children's National Hospital, Washington, DC
- Board of Directors, Osteogenesis Imperfecta Foundation
- Chair, Steering Committee, Rare Bone Disease Alliance
- Faculty Chair, Rare Bone Disease TeleECHO
- Principal Investigator, Brittle Bone Disorders Consortium site in Washington, DC
- Board of Directors, US Bone & Joint Initiative
- Steering Committee, Own the Bone Program, American Orthopaedic Association
- Medical and Scientific Advisory Committee, American Bone Health

# 2024 Accomplishments

## MEDICAL ADVISORY COUNCIL *(continued)*

### David Vernick, MD

- Harvard Medical School, Boston, MA
- Surgeon in Otolaryngology at Massachusetts Eye and Ear Infirmary, Beth Israel Deaconess Medical Center, Brigham and Women's Hospital, and Children's Hospital, Boston, MA

### Maegen Wallace, MD

- Pediatric Orthopedic Surgeon, Phoenix Children's Hospital
- Certified by the American Board of Orthopaedic Surgery
- Certified by the Certification Board for Professionals in Patient Safety
- Fellow of the American Orthopaedic Association, the American Academy of Orthopaedic Surgeons, a specialty fellow of the American Academy of Pediatrics and a member of the Pediatric Orthopaedic Society of North America

### Matthew Warman, MD

- Director of Orthopedic Research Laboratories, Department of Orthopaedic Surgery, Boston Children's Hospital, Boston, MA
- Professor, Departments of Orthopaedic Surgery and Genetics, Harvard Medical School, Boston, MA

### Michael Whyte, MD

- Emeritus Professor of Medicine, Washington University in Saint Louis
- Scientific Staff, Shriners Hospitals for Children, Saint Louis

## Regional OI Support Group Program

The OIF launched the Regional OI Support Group program! The support groups are divided into five regional groups (Northeast, Southeast, Midwest, Southwest, and West). The groups aim to connect and foster a sense of community among OI community members in a specific region of the United States and to provide national and local resources. The goal of the OIF Support Group Program is to provide a space for sharing, educating, and

socializing. Regional Support Group Leaders were selected from applicants who have a history of being involved in OI Foundation programs and serving the OI community. Each Regional Support Group leader underwent training to enable them to be a resource for families and individuals looking to connect with the OI community and OIF. Each Regional Support Group hosts monthly or bimonthly virtual meetings and helps support the Regional Conferences.

## Michael Geisman Fellowship Grant

**Roya Bagheri, PhD**, enters the 2025 year as the OI Foundation's newest Michael Geisman Fellow. The Michael Geisman Fellowship Grant program awards funding up to \$50,000 per year, for two years, to postdoctoral trainees who are currently working on projects with clear relevance to osteogenesis imperfecta, or who have projects that will enable them to develop expertise in OI research. Dr. Bagheri is a postdoctoral research fellow at the University of California, Los Angeles. She holds a Bachelor of Science in Material Science and Engineering from Iran University of Science and Technology, a Master of Science in Biomedical Engineering from the University of Tehran, and a Doctor of Philosophy in Mechanical Engineering from Michigan Technological University. Marie Coussens, PhD (Ghent University) continues her work as a Michael Geisman Fellow in 2024, as does Guilia Montagna, PhD (Boston Children's Hospital) who is in her second year of the fellowship.

## OIF National Information Center

This past year, OIF staff responded to more than 50 direct inquiries per month regarding medically verified information. Additionally, an average of 10,000 people used the OIF website each month. Topics ranged from medical issues such as genetics, diagnosis, and treatments to daily living strategies such as school participation and employment.

The Osteogenesis Imperfecta Foundation is pleased to announce the publication of the *Adult Health Toolkit: Information for Adults Living with OI, Their Families, and Medical Professionals* to help you navigate the many aspects of managing your health as an adult living with OI. This resource seeks to provide

adult OI community members with tools to use in healthcare environments and everyday life. The Adult Health toolkit joins the OI Foundation's Navigating a New Diagnosis toolkit as an effective way for families to learn how to best manage OI at all stages of life. These toolkits are an easy resource to share with providers, teachers and schools and are now available in English, French and Spanish. To date, the OI Adult Health and the Navigating a New Diagnosis toolkits have been accessed electronically more than 21,000 times and with more than 3,500 copies in print. We are excited to announce that the OI Foundation will be publishing our next toolkit—for school age children—in early 2025! To download our toolkits, visit [www.oif.org](http://www.oif.org).

## Awareness Week

From May 4–11, 2024, OI community members around the world celebrated National OI Awareness Week! OI community members and supporters hosted events, received official OI Awareness Week proclamations in nine states, created more than ten Facebook fundraisers, and shared social media posts to raise OI awareness. On Wishbone Day (May 6), the international OI Awareness Day, the OI Foundation shared a fact about OI every hour for 12 hours—these facts were seen by more than 50,000 people on social media!

## Jeanie Coleman Impact Grants

In partnership with the Children’s Brittle Bone Foundation, the Jeanie Coleman Impact Grant Program was designed to provide funding for items and services that will significantly improve the quality of life for a person who has OI and limited financial resources. In 2024, the OI Foundation and CBBF were able to fund \$175,193 for 23 families covering a range of items and services including (but not limited to) 2024 OIF National Conference attendance, wheelchair accessible vehicles, physical therapy, braces, and hearing aids.

## Edward D. Cranston College Scholarship

The Edward D. Cranston College Scholarship is for students with osteogenesis imperfecta who are applying to or have been admitted to a college or university. Applicants must articulate a need for scholarship assistance to meet their academic goals, be committed to full-time college enrollment, and show proof of enrollment to receive the funds. Angel Pacheco, who is attending the University of New Mexico, was the recipient of the scholarship for the 2024 cycle. Angel was selected from nearly 30 applicants by a committee comprised of OI Foundation Board of Directors members and OI community members. We are proud to support Angel as she moves forward in her education.

## Social Networking

The OI Foundation manages three official social networking sites: the OIF Facebook Page—followed by 15,055 Facebook users; the OI Foundation X page (@OIFoundation)—followed by 2,722 X users, and the OIF Instagram page (@oifoundation)—followed by 2,404 Instagram users. This year the OIF YouTube channel highlighted the Rare Bone Disease TeleECHO Clinic Series, sessions from the 2024 OIF National Conference, and OI community member stories in Gemma's Corner. This year, the OI Foundation joined TikTok! Be sure to follow us @oifoundation to stay updated with all the latest content and to join us in our mission to raise OI awareness.

## Rare Bone Disease Alliance

The Rare Bone Disease Alliance (RBDA), a program of the OI Foundation, brings together a coalition of seventeen (17) rare bone disease patient advocacy groups. The RBDA is committed to expanding education of rare and ultra-rare disorders and furthering research on the natural history, diagnosis, and treatment of these diseases. The RBDA unites researchers and early-stage investigators by hosting an annual Rare Bone Disease Working Group Meeting, monthly virtual TeleECHO sessions, an Early-Stage Investigator Meeting, and a Scientific Symposium.

## Rare Bone Disease and OI TeleECHO Sessions

In 2024, The Rare Bone Disease TeleECHO Clinic Series continued to educate medical professionals on a variety of rare bone diseases. This virtual education program held monthly sessions for medical professionals interested in rare bone diseases beyond just OI. In each session, leading experts on diagnosing and treating rare bone diseases gave didactic presentations, followed by discussion and participant-led case presentations. These sessions, which averaged 70–100 participants from around the world, provided researchers and clinicians a professional development opportunity and gave them a forum to discuss challenging cases so that they could improve their patient's outcomes. The Rare Bone Disease TeleECHO is led by an eight-member multi-disciplinary faculty that includes five members of the OIF's Medical Advisory Council (MAC): including Dr. Laura Tosi (Chair), Dr. Frank Rauch, Dr. Eric T. Rush, Dr. Jay Shapiro, and Dr. Michael Whyte.

Sessions that took place this year included topics such as: *Danish Nationwide Register Based OI Research*, *Dental Issues in FOP*, *Expanding the Phenotypes of Rare Skeletal Disorders*, *Growth in Children with OI*, and *Medical Management of Bone Fragility in Adults with OI*.

The OI Foundation gratefully acknowledges the generous individuals, foundations and corporations whose support helps us respond to thousands of inquiries each year, produce new information resources, fund research, organize National and Regional Conferences and facilitate the operation of support groups across the country. This list represents donations made from July 1, 2023 to June 30, 2024. We regret any error or omission and ask that corrections be brought to our attention.
