Children's National Medical Center

A Message From the President

.....
Dear Members:

As you all know, the mission of the Osteogenesis Imperfecta Foundation is to improve lives of people living with OI. I am proud to report that the work we have accomplished during the last fiscal year reflects the progress we have made in fulfilling our commitment the OI community.

It's hard to believe that in June of 2016 I will end my tenure as President of the OIF Board of Directors. It has been a pleasure and honor to serve as your volunteer leader these past three years. And, I'm delighted to share with you, through this report, some of the important milestones reached in the areas of research, mutual support and education.

In 2014 the OI Foundation hosted the biennial conference in Indianapolis, IN. The conference brought together more than 700 people from the OI community. Conference attendees attended workshops from OI specialists and had the opportunity to connect with old friends and make new ones as well. At the meeting's opening session Dr. Brendan Lee from Baylor College of Medicine and a member of the OIF's Medical Advisory Council, announced that OI would be represented in the National Institute of Health's Rare Disease Clinical Research Network as the Brittle Bone Disorders Consortium. He announced that the consortium clinical sites, including the OI Foundation, would receive \$6.25 million in funding over a five year period to conduct clinical research. This funding is a direct result of the investment the OI Foundation and its supporters made in creating and funding the Linked Clinical Research Center project. Thank you!

Over the past year, the OI Foundation continued visiting members of Congress to update them on our work. Led by volunteers, the OI Foundation visited more than 20 congressional offices this year. And, in an age where technology makes it easier to communicate with each other than ever before, the OI Foundation responded this past year to 6,500 requests for information, the website was visited 205,000 times and the Foundation maintained an active presence on various social media outlets.

We must thank our partners the Bennett Clayton Foundation, the Children's Brittle Bone Foundation and others for their support of programs like the OIF Regional Conferences and the CBBF/OIF Impact Grants. None of this work could have happened without the generous support of these organizations and from the contributors listed on the following pages. Thank you for your gifts!

Throughout the next year the OI Foundation will continue to build on the success of the year before and move our mission forward. Information on progress from the Brittle Bone Disorders Consortium will be made available throughout the year in Breakthrough and in the OIF's e-newsletters as well as on the official OIF Facebook page. And as always, please contact the Foundation with any questions or concerns you may have.

Thank you for your involvement in the work of the OIF and for your generous support this year. Although my term as a member of the Board of Directors will soon end I will continue to work, with all of you, to support our Foundation.

Thank you,

Mark D. Birdwhistell

Awareness

From May 2-9, 2015, the OI Foundation held its sixth annual National OI Awareness Week, involving volunteers across the country in holding awareness and fundraising events within their communities. Volunteers proclaimed OI Awareness Week in over 10 cities and states, held multiple walks and events nationwide and displayed more than 300 official OI Awareness Week posters. Over 30 hosts participated in Bone China Tea 2015 on Monday, May 4, 2015. The OIF also participated in Wishbone Day, the international day of OI Awareness held on May 6th each year, by sharing facts and information about OI on our social media sites every hour for 12 consecutive hours. We reached over 175,000 people through our National OI Awareness Week social media campaign called [SHAREforAWARENESS]. National OI Awareness Week and Wishbone Day help raise awareness about OI all over the world.

MEDICAL ADVISORY COUNCIL

CHAIR

Francis Glorieux, O.C., M.D., Ph.D. – Chairman

- Canadian Shriners Hospitals for Children, Shriners Hospitals for Children, Montreal, Quebec and McGill University in Montreal.
- Principal Investigator, OI Foundation Linked Clinical Research Center in Quebec.

Peter Byers, M.D.

- University of Washington School of Medicine, and University of Washington School of Dentistry, Seattle, WA.
- Genetic Medicine Clinic, University of Washington Medical Center, Seattle, WA.

Hollis Chaney, M.D.

- The George Washington University School of Medicine and Health Sciences, Washington, DC.
- Children's National Health System, Washington, DC, as Vice Chair of the Division of Pulmonary Medicine.

Paul Esposito, M.D.

- Clinical Service Chief, Pediatric Orthopedic Surgery Surgeon, Children's Hospital and Medical Center, Omaha, NE.
- Professor of Orthopaedic Surgery and Pediatrics, University of NE Medical Center, Omaha, NE.
- Co-Director for The OI Clinic at Children's Hospital and Medical Center in Omaha.

Deborah Krakow, M.D.

- UCLA, David Geffen School of Medicine, Los Angeles, CA.
- American Board of Medical Genetics board member.
- American College of Obstetrics and Gynecology policy committee on Genetics.

MEDICAL ADVISORY COUNCIL (continued)

Richard W. Kruse, D.O., M.B.A.

- Vice Chair Department of Orthopedics and Chief of the Orthopedic Trauma Service at Nemours/Alfred I. duPont Hospital for Children in Wilmington, DE.
- Professor of Orthopaedic Surgery Thomas Jefferson University College of Medicine in Philadelphia, PA and the Uniformed Services University School of Medicine in Bethesda, MD.
- Co-Director for the multidisciplinary OI program at Nemours/Alfred I. duPont Hospital for Children in Wilmington, DE.

Brendan Lee, M.D., Ph.D.

- Baylor College of Medicine, Houston, TX.
- Principal Investigator, Brittle Bone Disorders Consortium, National Institutes of Health Rare Diseases Clinical Research Network.

Joan Marini, M.D., Ph.D.

- Chief, Bone and Extracellular Matrix Branch, National Institute of Child Health and Human Development (NICHD), National Institutes of Health, Bethesda, MD.
- Director of Translational Research Program on OI at NICHD.
- Principal Investigator, NICHD Pediatric Research Program.

Cathleen Raggio, M.D.

- Hospital for Special Surgery, New York, NY, Orthopedic Surgeon.
- Co-Director of the Kathryn O. and Alan C. Greenberg Center for Skeletal Dysplasias.

Dr. Glorieux answers questions at the Uniting Unbreakable Spirits Regional Conference in Stamford, CT

Atticus and Debbie Shaffer at the Uniting Unbreakable Spirits Regional Conference, Los Angeles

Regional Conferences

In an effort to bring information and resources to more members of the OI community, the OIF held regional conferences in Los Angeles, CA, Stamford, CT, and Minneapolis, MN. Combined, the meetings reached 600 members of the OI community and more than half of the attendees had never been to an OI event before...welcome to the community! The one-day conferences featured educational sessions led by OI experts including OIF Medical Advisory Council members Dr. Jay Shapiro, Dr. Cathy Raggio, Dr. Laura Tosi, Dr. David Vernick, Dr. Deborah Krakow and Dr. Francis Glorieux.

Scientific Meetings

In April 2015, scientists from the United States, Canada and the United Kingdom gathered in Chicago for the 14th Annual OI Foundation Scientific Meeting. The meeting, titled *New Directions in OI Research*, was chaired by Dr. Cathy Raggio of Hospital for Special Surgery in New York and Dr. Deborah Krakow from UCLA. Both Dr. Raggio and Dr. Krakow serve on the OI Foundation's Medical Advisory Council. The meeting reviewed progress made over the past 15 years in the study of osteogenesis imperfecta and looked ahead to the future with talks from experts on orthopedics, genetics, dental manifestations and current medical treatment available to adults and children with OI. The conference was made possible by the generous support of the Buchbinder Family Foundation.

Research Grants

The OI Foundation awarded a second year of funding to Dr. Brya Matthews from the University of Connecticut. Her research focuses on examining approved drugs that block TNFa. TNFa is elevated in oim mice, which may contribute to increased bone turnover. She plans to test one of the approved drugs to determine if treatment can improve bone density and strength in mice. Since these drugs are already approved for use in children and with other diseases, promising results would potentially allow rapid clinical translation of these findings, providing an alternate treatment approach for children with OI. The OI Foundation also funded the research of Dr. Kyung-Eun Lim from the Indiana University School of Medicine. Dr. Lim's research will focus on a biological target called Nuclear Protein 1 which could potentially be manipulated to improve skeletal properties in OI.

MEDICAL ADVISORY COUNCIL (continued)

Frank Rauch, M.D.

- Canadian Shriners Hospitals for Children, and McGill University Faculty of Medicine, Montreal, Quebec, Canada.
- Director, Biomedical Laboratory, Shriners Hospitals for Children, Montreal, Quebec.
- Editor of the *Journal of Musculoskeletal and Neuronal Interactions*.

David Rowe, M.D.

- University of Connecticut Health Center, Farmington, CT.
- Director for Regenerative Medicine and Skeletal Development, University of Connecticut.

Sandy Sandhaus, M.D., Ph.D.

- University of Colorado School of Medicine, and National Jewish Health, Denver, CO.
- Clinical Director at the Alpha-1 Foundation, Denver, CO.
- Medical Director and Executive Vice President of AlphaNet.

Jay Shapiro, M.D.

- Endocrinologist experienced in the treatment of genetic and metabolic bone disorders in children and adults.
- Until recently, Director of the Bone and Osteogenesis Imperfecta Department, Kennedy Krieger Institute, Baltimore, MD. Professor in Dept. Physical Medicine and Rehabilitation Johns Hopkins School of Medicine.
- Currently practicing in Bethesda, MD, Dr. Shapiro is Adjunct Professor, Dept. of Medicine, Uniformed Services University of Health Sciences, Bethesda, MD.

MEDICAL ADVISORY COUNCIL (continued)

Peter Smith, M.D.

- Rush University School of Medicine, and Shriner Hospital for Children, Chicago, IL.
- Marquette University Department of Biomedical Engineering, Milwaukee, WI.
- Orthopedic Surgeon and co-director of the Motion Analysis Laboratory, Shriners Hospital, Chicago.

Reid Sutton, M.D.

- Texas Children's Hospital Skeletal Dysplasia Clinic and Baylor College of Medicine Department of Molecular and Human Genetics, Houston, TX.
- Director of the Medical Genetics Residency Program.
- Medical Director of the Biochemical Genetics Diagnostic Laboratory.

Laura Tosi, M.D.

- Children's National Health System, George Washington University School of Medicine and Health Sciences, Washington, DC.
- Orthopedic Surgeon.
- Principal Investigator, Children's Research Institute (CRI), Center for Genetic Medicine Research (CGMR), Children's National Medical Center, Washington, DC.

David Vernick, M.D.

- Harvard Medical School, Boston, MA.
- Surgeon in Otolaryngology at Massachusetts Eye and Ear Infirmary, Beth Israel Deaconess Medical Center, Brigham and Women's Hospital, and Children's Hospital, Boston, MA.

OI Registry

The OI Registry is a joint effort between the OI Foundation and the Kennedy Krieger Institute.

Each person completes a profile of their medical characteristics, family history, fracture history, and treatment. Based on their profile, people are contacted about institution and IRB-approved clinical research study opportunities. Since the Registry opened in March 2006, more than 1,500 people from the United States and 39 other countries have joined. In 2015 the OI Registry was moved to the OI Foundation and information from the registry will be used to identify new areas of OI research.

Impact Grants

In partnership with the Children's Brittle Bone Foundation, more than \$135,000 was awarded in 2015 to people with OI in need of products or services that would improve the quality of their lives. Grantees received funds to purchase adapted vehicles, new mobility devices, computers, hearing aids, dental work and other products and services. A new cycle of funding begins on January 4, 2016.

OI National Information Center

Approximately 7,000 requests for information were provided during the year, and the OI Foundation website was visited 205,000 times. The Center also offers a variety of resources, many of which can be downloaded free of charge, including booklets, brochures and more than 70 fact sheets. As part of the new information center for medical professionals (which was launched in October of this past year) the OIF introduced a new monthly podcast series featuring OI experts presenting on topics that advance the care of children and adults living with OI.

Social Networking

The OI Foundation manages three social networking sites: Osteogenesis Imperfecta (OI) Foundation Facebook Page; NING; and OI Foundation Twitter. The OI Foundation website continues to offer links to other social networking sites that might be helpful or interesting to parents and individuals living with OI. They continue to be managed by volunteers with whom the Foundation has established a working relationship. To date, more than 6,000 people are members of the official OIF Facebook page. This page allows the OIF to provide information in "real time" on events, activities and new information, including research updates.

MEDICAL ADVISORY COUNCIL (continued)

Matthew Warman, M.D.

- Investigator, Howard Hughes Medical Institute, Boston Children's Hospital, Boston, MA.
- Director of Orthopedic Research Laboratories, Department of Orthopaedic Surgery, Boston Children's Hospital, Boston, MA.
- Professor, Departments of Orthopaedic Surgery and Genetics, Harvard Medical School, Boston, MA.

Michael Whyte, M.D.

- Washington University School of Medicine, St. Louis, MO.
- Shriners Hospitals for Children, and Barnes-Jewish Hospital, St. Louis, MO.
- Medical-Scientific Director, Center for Metabolic Bone Disease and Molecular Research, Shriners Hospitals for Children, St. Louis, MO.

Attendees at the 15th Annual Fine Wines Strong Bones event bid on items

New Events

This year, the Foundation expanded its annual Fine Wines Strong Bones Gala and began hosting similar Strong Bones Galas at venues across the country. On November 14, 2015, the first ever Strong Bones Gala: Chicago was held with 175 attendees at the National Italian American Sports Hall of Fame in Chicago, IL. In 2016, this program will continue to grow with a Fine Wines Reception in Naples, Florida; the return of the flagship Fine Wines Strong Bones Gala for its 16th year in the Washington, DC metro area; and Strong Bones Galas in Orlando. These events are a wonderful way for people to come together, meet new friends and reconnect with old acquaintances all while enjoying an evening of fine wines and good times with the OI Foundation.

Advocacy

In 2015, the OI Foundation continued visiting members of Congress to update them on our work. Led by volunteers, the OI Foundation visited more than 20 congressional offices this year.

Rare Bone Meetings/ Activities

The OI Foundation continued to take a leading role in collaborating with other rare bone disease organizations at meetings and activities. For example, the OI Foundation coordinated the Rare Bone Disease Scientific meeting at the October 2015 ASBMR annual meeting held in Seattle, WA. The meeting, chaired by Dr. Roy Morello and Dr. Frank Rauch attracted more than 100 scientists interested in rare bone disease. Presentations on current clinical trials and a panel discussion that included representatives from the FDA made for a very successful program. The meeting specifically targeted young investigators and those new to the field of OI and rare bone research.

Dr. Brendan Lee, Principal Investigator of the BBD RDCRC

NIH Rare Diseases Consortium Grant

At the 2014 OIF National Conference it was announced that the OI Foundation is part of a team that will be receiving funds from the NIH to form the Brittle Bone Disorders Consortium as part of the NIH's Rare Diseases Clinical Research Network. This network will conduct clinical research and will incorporate the Linked Clinical Research Centers and the longitudinal study of OI. We are pleased to report that the BBDC in 2015 has four studies up and running and the OIF has successfully launched the medical education site on the OIF website. In addition almost 1,000 people have joined the BBD Contract Registry and a new partner, the Omaha Children's Hospital and Medical Center, has joined the consortium. As a reminder, the clinical research will include a Phase I drug study, a study on scoliosis in people with severe OI, pregnancy and OI, dentinogenesis imperfecta and other dental/craniofacial issues and OI, a biomarkers study and a quality of life and OI study. This is the only rare disease network at the NIH that is studying bone and specifically OI. The network is led by OIF Medical Advisory Council member, Dr. Brendan Lee, at Baylor College of Medicine. To learn more about the network, visit our website at www.oif.org.

Honor Roll of Contributors

CONTRIBUTORS

July 1, 2014 to June 30, 2015

The OI Foundation gratefully acknowledges the generous individuals, foundations, and corporations, whose support helps us respond to thousands of inquiries each year, produce new information resources, fund research, organize the biennial National Conference on OI for families, and facilitate the operation of support groups across the country. These are listings of donors from July 1, 2014 to June 30, 2015. We regret any error or omission and ask that corrections be brought to our attention.
