

Corporate-Donation Transparency Policy (Adopted 2/27/16)

The OI Foundation, in accordance with its By-Laws, Policies, and Mission, accepts financial support from other organizations, government, and industry groups to develop programs, organize meetings, and produce publications. Committed to transparency and integrity, the OI Foundation is solely responsible for determining program content and selecting speakers, and it acts independently of any sponsoring organization or industry group. The OI Foundation will not promote or endorse any drug, treatment, or commercial product on the basis of grants or donations received. The information presented at meetings sponsored by the OI Foundation reflects the opinion of presenters only. Their inclusion in meetings is not an endorsement, but a demonstration of the OI Foundation's commitment to thorough scientific investigation for the purpose of improving the understanding of OI and expanding OI treatment options.
