

NATIONAL OI AWARENESS WEEK 2021

2021 Proclamation Request Language

As a concerned citizen of this country, a member of the Osteogenesis Imperfecta Foundation, and a person affected by osteogenesis imperfecta, I would like to request that you, along with mayors, representatives, senators, and governors from across the United States, issue a proclamation declaring May 1-8, 2021 as National OI Awareness Week in [state].

Osteogenesis Imperfecta (OI) is a genetic bone disorder characterized by fragile bones that break easily. It is also known as "brittle bone disease."

Volunteers are joining the Osteogenesis Imperfecta Foundation, the only voluntary national health organization dedicated to helping people cope with the problems associated with osteogenesis imperfecta, to promote May 1-8, 2021 as National OI Awareness Week. These efforts will improve the quality of life for people with osteogenesis imperfecta by increasing the awareness of this rare disease among the public, media, government, and medical communities.

Below is suggested language for the National OI Awareness Week proclamation:
