Physicians of all specialties, nurse practitioners, physician assistants, and other healthcare professionals with an interest in rare bone conditions are welcome to attend monthly case-based telementoring presentations and discussions. The series will focus on general and disease specific topics related to rare bone diseases.

No cost CME will be available. The University of New Mexico School of Medicine, Office of Continuing Medical Education is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The Office of Continuing Medical Education designates this live activity for a maximum of 12 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Rare Bone Disease TeleECHO Program
August 2020 - July 2021
First Thursday of each month; 3:00pm-4:00pm ET

Interdisciplinary Faculty
Michael Collins, MD
Senior Investigator, Skeletal Disorders and Mineral Homeostasis Section, National Institute of Dental and Craniofacial Research/NIH
Michael Lewiecki, MD
Director, Bone Health TeleECHO, University of New Mexico Health Sciences Center
Eric. T. Rush, MD, FAAP, FACMG
Clinical Geneticist, Children’s Mercy Kansas City; Associate Professor of Pediatrics, University of Missouri-Kansas City School of Medicine; Clinical Associate Professor of Medicine, University of Kansas School of Medicine
Jay Shapiro, MD
Consulting Physician, Department of Endocrinology and Diabetes, Walter Reed National Military Medical Center
Dolores Shoback, MD
San Francisco Dept of Veterans Affairs Medical Center, Professor of Medicine University of California, San Francisco
Laura Tosi, MD
TeleECHO Faculty Chair; Director, Bone Health Program, Children’s National Hospital; Associate Professor of Orthopedics and Pediatrics, George Washington University

Presented by the OI Foundation in partnership with the Rare Bone Disease Alliance.

Register at www.oif.org/ECHO
Melorheostosis: The Genes Behind the Dripping Candle Wax
Timothy Bhattachyrra, MD  Orthopaedic Surgery, NIAMS/NIH

Evaluation of Patients with Hyperphosphatemia
Michael Collins, MD  Senior Investigator, Skeletal Disorders and Mineral Homeostasis Section, National Institute of Dental and Craniofacial Research/NIH

Mechanisms of Bone Loss in Complex Lymphatic Anomalies
Michael Kelly, MD, PhD  Professor of Pediatrics, Northeast Ohio Medical University

Dental Concerns in Patients with Rare Bone Disorders
Tim Wright, DDS, MS  Bawden Distinguished Professor, Division of Pediatrics and Public Health, Adams School of Dentistry, University of North Carolina

Generalized Arterial Calcification of Infancy (GACI)
Carlos Ferreira, MD  Chief, Skeletal Genomics Unit, National Human Genome Research Institute, NIH

Skeletal Surveys – A Systematic Approach
Dorothy Bulas, MD  Chief, Department of Radiology, Children’s National Hospital; Professor of Pediatrics and Radiology, George Washington University School of Medicine

Jansen’s Disease
Harald Jueppner, MD  Chief, Pediatric Nephrology, Massachusetts General Hospital; Professor of Pediatrics, Harvard Medical School

Bone Pain in Children
Alison Boyce, MD  Associate Research Physician, National Institute of Dental and Craniofacial Research, NIH

Multiple Hereditary Exostoses
David S. Feldman, MD  Co-Director, Multiple Hereditary Exostoses Center, St. Mary’s Medical Center, West Palm Beach, FL

DXA Evaluation in the Child
Catherine Gordon, MD  Adolescent Chief, Boston Children’s Hospital; Robert P. Masland, Jr. Chair of Adolescent Medicine, Professor of Pediatrics, Harvard Medical School

Adult Hypophosphatasia
Kathryn Dahir, MD  Professor of Medicine, Vanderbilt University Medical Center

Evaluation of the Child with Multiple Fractures
Eric. T. Rush, MD, FAAP, FACMG  Clinical Geneticist, Children’s Mercy Kansas City; Associate Professor of Pediatrics, University of Missouri-Kansas City School of Medicine; Clinical Associate Professor of Medicine, University of Kansas School of Medicine
